Experience

AI engineer · Epoch AI / Zerg AI

2025 to now. Agent runtimes, tool dispatch and evaluation harnesses, plus forward-deployed work with customers.

MOBIVOLT

2023 to 2025. Test-stand software in C# and Avalonia, hardware-in-the-loop simulation, firmware migration, and KiCad and ngspice work for a DOD-funded fuel-cell program.

Founder and president · AI at UCR

2023 to 2025. UC Riverside's first official AI organization. 50+ members and 10+ technical workshops.

Selected projects

Zerg and ZTC

Parallel tool dispatch, worktree-isolated batch execution, and the live web interface for autonomous coding agents.

Kestrel

A single-voice audiobook engine for MLX distilled from Kokoro-82M, with about 10M active parameters. It sounds less clear than Kokoro and misses both quality gates.

Epub Listener and Hark

Tools to turn books into audio and listen on-device, with read-along and offline playback.

Education and awards

B.S. Computer Science, UC Riverside, June 2026. GPA 3.66. Minor in Strategy & Entrepreneurship.

AMD University Program Award for the team's PHiLIP prototype, built on AMD ROCm and PixArt-alpha.

Cutie Hack 2022: first place in the sustainability track.
